

Current Problems

1. Empty subscription table creates a "dead-end" experience.
2. No personalization.
3. No quick access to frequently used actions.
4. No visibility of reading history or saved articles.
5. User account page feels like a settings page rather than a membership dashboard.
6. FAQ occupies prime screen space despite being low-priority content.
7. Limited scalability for future account management features.
8. Does not support user engagement and habit-building
